Objective

Computer Science and Engineering student with a strong foundation in software development, networking, and problem-solving, with hands-on experience in Python, Linux, REST APIs, authentication, databases, and modern development tools. Seeking an internship opportunity to apply my technical skills, gain hands-on industry experience, and contribute to building secure, reliable, and scalable software systems.

Education

Bachelor of Science in Computer Science and Engineering	2022 – Present
<i>Independent University, Bangladesh (IUB)</i>	CGPA: 3.60 / 4.00

Skills Summary

Programming Languages: Python, Java, JavaScript, TypeScript
Frontend: HTML5, CSS3, React 19, Tailwind CSS
Backend: FastAPI, Node.js, REST APIs
Database: SQL, PostgreSQL, MySQL
Cloud & Deployment: AWS Lambda, Vercel, Render, Neon, Cloudinary, CI/CD
Tools: Git, GitHub, Linux, Postman, Swagger, Docker, Cisco Packet Tracer
Technical Skills: Object-Oriented Programming (OOP), Version Control, Networking

Projects

EasyTrip – Bangladesh Tourism Platform <i>React, TypeScript, FastAPI, PostgreSQL, SQLAlchemy, Alembic, JWT Authentication, OAuth2PasswordBearer, REST API, AWS Lambda, Docker, CI/CD, Cloudinary</i>	GitHub Live Demo
QuickNote – Full Stack Note Management System <i>React, TypeScript, FastAPI, PostgreSQL, SQLAlchemy, Alembic, JWT Authentication, REST API, Neon, Render, Vercel</i>	GitHub Live Demo
Memory Card Game <i>React, JavaScript (ES6+), Vite, Tailwind CSS, REST API (PokéAPI)</i>	GitHub Live Demo
